Healthy Gums May Lead to a Healthier You!

DID YOU KNOW THAT YOUR ORAL HEALTH COULD BE AN INDICATOR OF YOUR OVERALL HEALTH?

Regular visits to the dentist may do more than brighten your smile. Research has linked periodontal (gum) disease to complications for heart disease, stroke, diabetes, preterm birth and other health issues. Healthy gums support healthy teeth. Follow the suggestions provided to help prevent gum disease. And if you are diagnosed with gum disease, it's important to complete the periodontal treatment plan recommended by your dentist.

Healthy Gums May Mean a Healthier Heart

People with advanced gum disease may be more likely to have heart disease than those with healthy gums¹. Bacteria and their byproducts from the gum tissues may enter the blood stream, causing small blood clots that may contribute to the clogging of arteries². Clots in the coronary arteries can lead to heart attacks. A blood clot in the brain can cause a stroke. Bottom line: care for your gums, and they may help guard your heart!

Healthy Gums May Help Control Blood Sugar

Those with diabetes may have more complications with gum disease. Why? As a general rule, diabetics have a tougher time healing. And research shows they suffer greater tooth loss than patients without diabetes. One study³ found that when diabetic patients' gum infections were treated, they found it easier to manage their blood sugar. Good dental health may be linked to a reduced risk of diabetic complications!

Gum disease may be painless, but symptoms can appear, such as:

- Tender, swollen or bleeding gums when you brush your teeth
- Dark red or receding gums
- Bad breath or a bad taste in your mouth
- Loose teeth
- Gum disease is treatable. Be sure to visit your dentist on a regular basis.

Healthy Gums May Help Reduce the Risk of Pre-term Birth

Mom's gum disease may increase the probability of a pre-term birth. Pregnant women with chronic periodontal (gum) disease during the second trimester are up to seven times more likely to give birth prematurely.^{3,4} It's recommended that pregnant women should focus on brushing and flossing and getting regular dental check ups. This possible link between gum disease and preterm birth is another reason to protect your dental health!

PREVENTION IS POWERFUL!

The American Dental Association (ADA) suggests the following behaviors to help prevent gum disease⁵.

- Brush your teeth twice a day with a soft-bristle toothbrush
- Floss daily
- Eat a healthy diet and limit snacks between meals
- See your dentist regularly

Cigna Dental Care - We Plan to Make You Smile!

Cigna Dental is proud to offer State of Florida employees one of the most comprehensive dental coverage plans in the market today. Our Prepaid Patient Charge Schedule (PCS) reflects a fixed co-payment amount that allows you to plan and budget for you and your family's dental care needs with confidence. Your benefits include:

- If you require specialty care, your network general dentist will refer you to a network specialist. You do not require a specialty referral to visit a network orthodontist or network pediatric dentist. You are responsible for paying the network dentist the applicable co-payments listed on your Patient Charge Schedule (PCS).
- Choose from 882 dental offices with 3,942 general dentists throughout Florida.
- Orthodontic coverage for children and adults.
- Coverage on procedure(s) to detect oral cancer in its early stages.
- No age limit on sealants.
- Coverage for most preventive services (exams, x-rays and routine cleanings) is provided at no charge.*
- No waiting period, coverage begins immediately.
- No deductibles to meet.
- No claim forms to file.
- No annual or lifetime dollar maximums to exceed.
- No restrictions on pre-existing conditions, except for work in progress.
- Knowledgeable, caring customer service.
- Participating dentists to complete a credentialing process and participate in a Quality Management Program.
- Access to myCigna.com, a secure on-line tool that makes it easier and faster for you to access:
 - 1) your personalized dental benefits information;
 - 2) dental health articles via WebMD; and
 - 3) the Dental Treatment Cost Estimator, which allows you to estimate and plan dental care costs before receiving services.

* Frequency Limitations apply; see your Patient Charge Schedule, starting on page 4, for further information.

We Give You More Reasons to Smile!

Cigna Dental makes it easier for children under seven to seek dental care.

Another benefit enhancement to the ***Prepaid Plan - Pediatric Dentist Simplification Plan**

- You can now select a participating pediatric dentist as a primary care dentist for your dependent child(ren) under age seven. You can locate a participating pediatric dentist by visiting www.cigna.com, www.mycigna.com or by calling the number on your ID card and speaking with a representative.
- Because of this benefit enhancement, you no longer need a referral for your dependent child(ren) to receive dental care from a network pediatric dentist. In addition, preauthorization is not required.
- If your network general dentist refers your dependent child(ren) under age seven to a network pediatric dentist, your child(ren) will be automatically transferred to the pediatric dentist as his/her primary care dentist.
- If a network pediatric dentist is not available in your area, you must contact Cigna Dental prior to starting a new treatment plan. We will advise you if a network pediatric dentist has been added to your area because coverage will then be available from the network pediatric dentist.
- You have the option to transfer back to any network general dentist or you may select another network pediatric dentist.
- The pediatric dentist can provide dental examination and treatment without sending the treatment plan to Cigna Dental for prior payment authorization.
- As always, your standard co-payment will apply for each visit your dependent child(ren) will make to a pediatric dentist.
- Review your Patient Charge Schedule carefully so you will know what procedures are covered and what your financial responsibilities are.
- Once your dependent child(ren) reaches their seventh birthday, they will be transferred to your participating network general dentist.

Cigna Dental Treatment Cost Estimator

Estimate and plan your dental care costs.

You can estimate and plan for your dental care costs using Treatment Cost Estimator on myCigna.com. This user friendly web-based tool allows you to get dental estimates based on your specific plan design and geographic location.

This tool is flexible, enabling you to get estimates at a procedure or treatment level. A treatment level estimate is usually more accurate because it represents a group of procedures used to treat or resolve a specific dental condition or disease. This gives you a better understanding of what you may pay when you visit the dentist.

Cigna Dental Care - Limitations on covered services

Listed below are limitations on services covered by the Dental Plan:

Frequency — The frequency of certain covered services, such as cleanings, is limited. The Patient Charge Schedule lists any limitations on frequency.

Specialty Care — Payment authorization is required for coverage of services by a Network Specialist.

Pediatric Dentistry — Coverage to a Pediatric Dentist ends on an enrolled child's 7th birthday; however, exceptions for medical reasons may be considered on an individual basis. The Network General Dentist shall provide care after the child's 7th birthday.

Oral Surgery — The surgical removal of an impacted wisdom tooth is not covered if the tooth is not diseased or if the removal is only for orthodontic reasons.

Exclusions - Cigna Dental Care

Listed below are the services or expenses which are NOT covered under the Dental Plan and which are the Covered Person's responsibility at the dentist's Usual Fees. There is no coverage for:

- Services not listed on the Patient Charge Schedule.
- Services provided by a non-Network Dentist without Cigna Dental Health's prior approval (except emergencies as described in Plan Documents).
- Services related to an injury or illness covered under workers' compensation, occupational disease or similar laws. (FL — This exclusion relates to such services paid under Workers' Compensation, occupational disease or similar laws.)
- Services provided or paid by or through a federal or state governmental agency or authority, political subdivision or a public program other than Medicaid.
- Services relating to injuries which are intentionally self-inflicted.
- Services required while serving in the armed forces of any country or international authority or relating to a declared or undeclared war or acts of war.
- Cosmetic dentistry or cosmetic dental surgery (dentistry or dental surgery performed solely to improve appearance).
- General anesthesia, sedation and nitrous oxide, unless specifically listed on your dental fee overview.
- Prescription drugs.
- Procedures, appliances or restorations if the main purpose is to: (1) change vertical dimension (degree of separation of the jaw when teeth are in contact) or (2) diagnose or treat abnormal conditions of the temporomandibular joint, except as specifically listed on the Patient Charge Schedule.
- The completion of crown and bridge, dentures or root canal treatment already in progress on the date Covered Person becomes covered by the Dental Plan.
- Replacement of fixed and/or removable prosthodontic appliances that have been lost; stolen; or damaged due to patient abuse, misuse or neglect.
- Services associated with the placement or prosthodontic restoration of a dental implant.
- Services considered to be unnecessary or experimental in nature.
- Procedures or appliances for minor tooth guidance or to control harmful habits.
- Hospitalization, including any associated incremental charges for dental services performed in a hospital.
- Services to the extent the Covered Person is compensated for them under any group medical plan, no-fault auto insurance policy, or insured motorist policy.
- Crowns and bridges used solely for splinting.
- Resin bonded retainers and associated pontics.

Frequently Asked Questions

What if I need to see a specialist?

If you require specialty care, your network general dentist will refer you to a network specialist. You do not require a specialty referral to visit a network orthodontist or network pediatric dentist. You are responsible for paying the network dentist/specialist the applicable co-payments listed on your Patient Charge Schedule (PCS).

Are braces covered?

Yes, both for children and adults. For orthodontic treatment started before you joined the Cigna Dental Care plan, call Customer Service to determine if any benefit is available.

How do I choose a dentist?

There are over 2,300 general dentists in Florida who serve State employees. More than 73% of you will have access to two or more dental offices within ten miles of your home. Select your dentist by visiting www.cigna.com. For your convenience, we encourage members to register at www.mycigna.com. The automated Dental Office Locator always gives you the most up-to-date network information, available 24 hours a day. Customer Service and the Dental Office Locator are available at 1.800.CIGNA24.

Can I change dentists?

Yes! Just call 1.800.CIGNA24 and use the Quick Transfer automated service available 24 hours a day or speak with a representative during business hours. The change will take effect on the first day of the following month. Transfers take approximately five days to process.

Can family members use different dentists?

Yes! Covered family members can select their own network dentists.

How much will I pay for covered services?

When there is a charge, your Patient Charge Schedule in your post-enrollment kit will tell you what the charge will be for covered procedures. Cigna Dental Care members know exact amounts, not just a percentage of what the dentist would usually charge, so they are able to budget accordingly.

How much do I pay for an office visit?

There is no patient charge for office visits. If you need a service for which there is a charge, your dentist will let you know.

What about pre-existing conditions?

Treatment in progress prior to the effective date of coverage is not covered.

Do I have to select a Network General Dentist?

As a Prepaid member, you are required to select and visit a network general dentist (provider) for all your dental care needs.

What happens if I do not select a dentist from the Cigna Prepaid Network?

If you receive covered service from a dentist who does not participate in the Prepaid network, your benefits may be significantly reduced or the services received may not be covered at all. At the time of enrollment in the Prepaid plan, you are required to select a network general dentist. If the dentist you choose is not available, then Cigna Dental will select one for you.
