¹ Ask your doctor or other prescriber if there is a generic available, as these generally cost less.

² If a generic is not available or appropriate, ask your doctor or healthcare provider to prescribe from the preferred drug list.

³ You will pay the most for medications not on the preferred drug list.

PLEASE NOTE: When a generic is available, but the pharmacy dispenses the brand-name medication for any reason other than doctor or other prescriber indicates "Dispense as Written," you will pay the difference between the brand-name medication and the generic plus the brand copayment. Caremark.com/sofrxplan is your pre-enrollment site where you can access your prescription drug plan's co pay information, preferred drug list, maintenance medication drug list and information about the Plan. You can easily order refills and manage your prescriptions anytime at Caremark.com; registration and log-in required.
