About Capital Health Plan

Becoming a member of Capital Health Plan (CHP) helps protect you against the high cost of health care. We offer comprehensive care through our network of physicians, hospitals and other service providers, with competitive premiums and robust plan designs.

Eligibility & Service Area

CHP proudly serves Calhoun, Franklin, Gadsden, Jefferson, Leon, Liberty, and Wakulla counties in Florida. We offer employer-based coverage for State of Florida employees and Medicare Retiree Advantage (HMO) to eligible individuals living in our service area.

State of Florida Retirees

As a State of Florida retiree living in the CHP service area, you and your eligible dependents may be able to continue your Capital Health Plan coverage after you retire.

Capital Health Plan Retiree Advantage (HMO) allows Medicare eligible members and their eligible dependents to continue their employer-sponsored coverage with limited changes and added benefits. Your State of Florida Retiree Advantage plan offers all the benefits of Medicare plus more. To be eligible for the State of Florida Retiree Advantage plan, you must be entitled to Medicare Part A, enrolled in Medicare Part B and live in the CHP service area.

State of Florida Medicare Retiree Advantage members and their dependents will begin receiving their prescription drug benefit including mail order through Capital Health Plan. You may see some differences in the formulary and how drugs are covered. The formulary is the list of covered drugs. It lists restrictions and cost sharing tiers. Some drugs and high risk medications may no longer be covered. Your drugs may be in different cost sharing tiers and new restrictions may apply. We recommend that review the updated formulary by visiting our website at www.capitalhealth.com/Medicare. You and your dependents will receive a new ID card, which must be presented to the pharmacy to receive your drugs through Capital Health Plan.

Please also note the following for Medicare Retiree Advantage members:

- The fitness benefit you are currently eligible for becomes an individual benefit and not a per household benefit. This means that you and your dependents can now each enjoy this benefit.
- A unique benefit for our Medicare Advantage members is the eye wear benefit. You can receive up to \$150 reimbursement every two years for the cost of eyeglasses or contacts. If you go to one of our Eye Care Centers at Centerville or Governor's Square, they will deduct this from the cost, otherwise you must submit receipts for reimbursement.

Physician Group of Capital Health Plan

The Physician Group of Capital Health Plan (PGCHP) is dedicated to providing care exclusively for our members at the Governor's Square and Centerville health centers. The PGCHP promotes evidence-based, patient centered medical care and encompasses services such as primary care, eye care, colon screening, lab services, imaging, and chronic care. For more information please visit www.physiciangroupchp.org.

Capital Health Plan Urgent Care

CHP provides patient friendly Urgent Care Services at our Centerville location. Staffed by nurses and physicians, the office provides care for non-emergency conditions. Medical conditions appropriate for treatment include upper respiratory infections; minor trauma such as ankle sprains and cuts; bronchitis; urinary tract infections; and other relatively minor problems.

Capital Health Plan Urgent Care is located at 2140 Centerville Place, and is open weekdays, 11:00 a.m. - 10:00 p.m., and weekends, 9:00 a.m. - 8:00 p.m.; holiday hours may vary. Call for an appointment at (850) 383-3382.

Choosing a Primary Care Physician

One of the most important health care decisions you will make is selecting your primary care physician (PCP) - your health care partner and coordinator for everything pertaining to your health. You can select a PCP from our large, stable network of providers.

CHP's provider directory is located at capitalhealth.com and is available in print from Member Services. This directory lists the Physician Group of Capital Health Plan, affiliated primary care physicians, and their locations so that you may take into consideration those who are convenient to your home or work.

Accessing Specialty Care

To receive the most appropriate and efficient care, talk with your PCP before seeing a specialist. Your PCP can help coordinate specialty care with your unique needs and medical history in mind. As a CHP member, you can access specialty care through direct appointment, with a referral from your PCP, or with pre-authorization for certain services. CHP has a large, stable network of affiliated specialists which can be found at capitalhealth.com or by calling Member Services.

Worry Free Travel

CHP members are covered for urgently needed care anywhere and anytime in the United States, and for emergencies anywhere in the world. We also participate in Away From Home Care[®] and The BlueCard Program[®], which provides coverage to our members who are outside of the service area for an extended period of time in participating areas of the country. Visit capitalhealth.com/members for more information.

Health and Fitness Reimbursement

Reward yourself for working hard! CHP members can receive up to \$150 per calendar year, per household, to put toward health and fitness expenses. Visit capitalhealth.com/members to review the requirements.

Online Tools

No matter what you want to know, we'll help you find the answer.

Healthwise® Knowledgebase

The Healthwise Knowledgebase is a searchable medical encyclopedia providing descriptions of symptoms, pictures, and treatment options. Covering more than 8,000 topics on health conditions, medical tests and procedures, medications, and everyday health and wellness issues, this tool helps members learn more about their health and become active partners with their doctors.

Video Library

The Healthwise® Video Library is a searchable database of educational videos on a range of health topics. These videos will show members things that might be difficult to grasp with just words - “how-to” medical instructions, explanations of complex concepts, even illustrations of medical procedures that members may be facing. Videos that explain what will happen, and why, can help reduce anxiety.

Symptom Checker

Symptom-based interactive topics can help members assess health concerns and determine when to seek care from a health professional. Members will receive treatment recommendations based on individual responses to triage questions. Topics also include significant self-care information so members can learn how to treat conditions at home when appropriate and prevent a future occurrence. The information will also help members prepare for appointments.

Shared Decision Making Tools

Decision Points help members determine the right course of action when making critical health treatment decisions. Members can even “try on a decision” to see what works best for them. Decision Points provide the framework and information necessary for members and their doctors to make wise health care decisions together.
